

3.THG Semi-annual Faculty/Graduate Student Progress Review

Spring 2021 Semester

DMSE DEPARTMENT OF MATERIALS SCIENCE & ENGINEERING

Instructions

The purpose of this progress report is to ensure that graduate students and their advisors are communicating regularly regarding the student's progress on thesis research and the student's overall professional development. Completion of the review is mandatory in order for the student to receive his or her thesis credits and a grade for subject 3.THG for any given term. This is an opportunity for all parties to get a better sense of progress on a project, of the student's development, and of the student/advisor working relationship, as well as to plan for future progress.

Students should arrange a remote meeting with their advisor to address the questions in this form then submit their responses through DocuSign. Feel free to attach additional pages if you need more space. The form will be routed to your advisor for additional commentary and grade assignment of "J" for satisfactory progress toward the thesis requirements or "U" for unsatisfactory progress. The completed form will be copied to the student, advisor, and DMSE Academic Office.

June 2021 degree candidates: You do not need to complete this form. Final grades for the SM (letter grades) and PhD (SA for satisfactory) are entered after submission of your thesis.

Co-advised students: Fill out a separate form for each co-advisor to review.

Form submission deadline: Friday, April 23, 2021.
