

Master of Science Program Proposal

Student Information

Name

MIT Email

Submit the completed form via DocuSign by the last day of classes two academic semesters prior to expected graduation.

Your proposal will be reviewed by the Departmental Committee on Graduate Studies and you will be notified of the result.

Specification

Is the Master of Science Program Proposal with specification or without specification? Please visit the Office of Graduate Education's web page about diploma format [HERE](#) for more information and see the details below about degree requirements.

With Specification Without Specification

Of the minimum 66 graduate units required by MIT for a Master of Science Degree:

- 42 graduate level units must be Course 3.
- If "with specification", 34 graduate level units must comprise a coherent program.* The units do not have to necessarily be all Course 3 subject units.
- 3.20 and 3.21 or their equivalents must be completed. Equivalent subjects that may have been taken at a different institution require petition to and approval by the Departmental Committee on Graduate Students.
- 3.THG Graduate Thesis or 3.932 Industrial Practice units may not be used toward the 66 unit requirement.
- Subjects that do not satisfy the SM degree requirements include subjects in English as a Second Language and undergraduate subjects taken as an undergraduate.
- Graduate subjects taken as an undergraduate and not applied toward that degree's requirements, and advanced undergraduate subjects taken as a DMSE graduate student, may be used for graduate "G" credit upon successful petition to the Chair of the Departmental Committee on Graduate Studies.

Advising

Faculty Advisor

Department

If the primary advisor is not a DMSE Faculty member, please identify a departmental faculty co-advisor / thesis reader.

Name

Co-Advisor or Thesis Reader

Subjects comprising the Master of Science Program

No.	Subject Title	Units	Course 3 units applied to 42 unit graduate level requirement	Units applied to 34 unit Coherent Program requirement*
